

**Release Notes**  
**for**  
**Ordering of Monitoring Calls,**  
**Extra column for ID number, and**  
**Change to 'Datum gefiatteerd in Osiris'**

Written by	5.1.2e
Authorised by	5.1.2e
Version A	25 <sup>th</sup> August 2020

## 1. Overview

4 requests for change have been received by inFact from the User Group on 31<sup>st</sup> of July 2020. All requests are required for HPZoneNL and HPZLite.

1. Changes to monitoring calls
2. Additional columns in monitoring tables
3. Additional columns in Contact tables
4. Change of "Datum gefiatteerd in Osiris" in Osiris Notification panel

After several clarification and correspondence emails, the implementation of the above change requests has been completed and made available on the UAT sites

<b>3 Contact Number added to Contact table .....</b>	<b>6</b>
<b>4 Change to "Datum gefiatteerd in Osiris" in the Osiris Notification panel .....</b>	<b>7</b>

## 2. Changes to Monitoring Calls

The following changes have been made to the Monitoring Call object in HPZoneNL and HPZLite.

### 1.1 Ordering of Monitoring Calls

The Monitoring Calls have now been ordered in chronological order with the most recent Call at the top of the list.

The ordering is based on the Date of the Call. Changes apply to Contact, Exposed Person and Common Exposure Contact views.

Monitoring Calls (3)	
Add new Monitoring Call	
Monitoring Call for TST/C20.15163 on 14.8.2020 10:00	
Person has symptoms?	No
final call	
Monitoring Call for TST/C20.15163 on 07.8.2020 10:30	
Person has symptoms?	No
second call	
Monitoring Call for TST/C20.15163 on 01.8.2020 10:00	
Person has symptoms?	No
first call	

### 1.2 Monitoring Call to include Call Date/Time (and not creation date)

The Monitoring Call has been changed so that any newly created Calls will now show the Date and Time of the Call. Previously this showed the Creation date.

The format of the Date/Time in the Monitoring Call will slightly from:

- Monitoring Call for TST/C20.15390 on aug 9 @ 09.30
- to:
- Monitoring Call for TST/C20.15390 on 9.8.2020 09:30

**Monitoring Calls (3)**

Add new Monitoring Call

Monitoring Call for TST/C20.15163 on 14.8.2020 10:00	
Person has symptoms?	No
final call	

Monitoring Call for TST/C20.15163 on 07.8.2020 10:30	
Person has symptoms?	No
second call	

Monitoring Call for TST/C20.15163 on 01.8.2020 10:00	
Person has symptoms?	No
first call	

The Call Date is populated from the Date and Time of the New Monitoring Call field, as shown below:

**New Monitoring Call**

Name: Monitoring Call for [Person] on [Date and Time]

Call Data

Object: TST/C20.15163

Call Type:  Telefoontje gepleegd  Telefoontje ontvangen

Date and Time: 14 / 8 / 2020 - 10 : 00 Calendar Clear

Details

B I [text alignment icons] [list icons] Styles Normal Font

**Note:** Historic data will remain unchanged. This means that all existing Calls will continue showing the Creation Date in the title, but the Call Date and Time will remain recorded in the details. The old Calls will also have the old format in the title (Monitoring Call for TST/C20.15390 on aug 9 @ 09.30).

## 2 Contact/Exposed Person/Common Exposure Contact Number added to Monitoring Tables

Monitoring tables from the Control page, as listed below, now include the Contact/Exposed Person/Common Exposure Contact Number.

-  There are **13 Open COVID-19 Situations**
-  There are **9 Open COVID-19 Exposed People**
-  There are **9 Open COVID-19 Contacts**
-  There are **50 Open COVID-19 Cases**
-  There are **6 ongoing active COVID-19 monitors**
-  There is **1 active daily COVID-19 monitor requiring an update**
-  There are no active non-daily COVID-19 monitors due a first monitoring call
-  There are **2 active non-daily COVID-19 monitors due a follow-up monitoring call**
-  There are no Ongoing Passive COVID-19 Monitors

Ongoing Active COVID-19 Monitors (6)										
Show Export Options : Print										
Number	Contact / Exposed Person	Dob	BSN	Degree of Contact	Index Case	Monitoring start date	Last monitoring date	Next monitoring date	Monitoring end date	Status
TST/C20.15153	Exposed Person Test	01-01-2000		Category 1: huishoudcontact		5.1.2e	5.1.2e	5.1.2e	5.1.2e	Volgens schema
TST/C20.15146	JJ Jameson	04-04-1999		Category Zb: nauw contact, kort		5.1.2e	5.1.2e	5.1.2e	5.1.2e	Volgens schema

## 3 Contact Number added to Contact table

The **Open COVID-19 Contacts** table view for now has an additional column: Contact number.

COVID-19 Open Contact (9)													
Show Map : Show Export Options : Print													
Name	Surnam	Number	Type	Agent	Index Case	Date of Birth	Postcode	Date recorded	CM	IO	Actions	Monitoring Calls	Monitor conclude
a Contact	Contact	15154	contact	COVID-19	Silver		1111 AA	25-06-2020	KO	KO	 (1)		
Test	Test	15207	contact	COVID-19	Test			26-06-2020	OS	OS			
TEST	TEST	15183	contact	COVID-19		01-01-2000		25-06-2020	OS	OS	 (1)	 (3)	Geen klachten

Case and Situation tables already contain this column.

#### 4 Change to “Datum gefiatteerd in Osiris” in the Osiris Notification panel

When the Osiris Questionnaire is sent to Osiris for the first time with **Status van de melding = Gefiatteerd**, the “Datum gefiatteerd in Osiris” in Notification panel is automatically populated with the appropriate date.

However, if you change the Questionnaire, for example, a day later and want to send it again with Status “Gefiatteerd”, the date “Datum gefiatteerd in Osiris” got updated. This has been changed – when sending the Questionnaire with Status van de melding = Gefiatteerd, the “Datum gefiatteerd in Osiris” will only be set, if the date field is blank. This also means that if the “Datum gefiatteerd in Osiris” is already populated, it will NOT be overwritten.

Notification 	
<b>MELDING AAN DE GGD</b>
