Good afternoon all,
Here is the most recent agenda.
Please try to reconnect, IT has solved the technical hitch.

Best Regards

Subject: WHO ad hoc consultation: Next steps for COVID-19 vaccine clinical evaluation

Good evening all,
You are invited to attend the above mentioned meeting on **6 November 2020** from **13:00 to 18:00** Central European time.

An important discussion point is what methodological approaches can be used to generate critical evidence on COVID-19 vaccines (after interim results for vaccine 1 are available) and recommendations for deployment of an *unlicensed* vaccine are issued.

While use of placebo controls is most efficient and will provide the most timely, reliable, and interpretable results, a careful investigation of what data will still be needed (to inform policy and regulatory recommendations) on vaccine 1 is pertinent.

Equally important is to deliberate and issue recommendations on approaches to obtaining efficacy data when (and if) placebos can no longer be used.

You will receive webinar connection details on Monday, 2 November 2020.

We look forward to your participation.

Kind regards,

[REDACTED] 5.1.2e
