Betreff: RE: Question about ECDC case definition and contact tracing guidance

Dear [redacted]

The full guideline in Dutch can be found here: <https://lci.rivm.nl/richtlijnen/covid-19>

The case definition is included, it reads in Dutch:

Bevestigde patiënt: elke persoon bij wie door middel van gevalideerde PCR of andere nucleïnezuuramplificatietest of een in Nederland gevalideerde antigeensneltest een infectie met SARS-CoV-2 is vastgesteld.

Best wishes,

[redacted]

Subject: Re: Question about ECDC case definition and contact tracing guidance

Dear [redacted]

Thanks; is the national document on case def including antigen Test online available?

Greetings from Vienna, AGES
