Moderna Announces Longer Shelf Life for its COVID-19 Vaccine Candidate at Refrigerated Temperatures.pdf
Moderna's COVID-19 Vaccine Candidate Meets its Primary Efficacy Endpoint in the First Interim Analysis of the Phase 3 COVE Study.pdf

Dear all,

I hope this finds you well.

On behalf of the whole Moderna team, I wanted to share a quick note to thank you for your time in speaking with us on November 5. We found our discussion interesting and valuable, and wanted to reaffirm that we are available to address any additional questions you may have over the coming weeks and months.

We also wanted to take this opportunity to share two key milestones with you: 1) the first interim analysis of our Phase III study, known as the COVE study, for our COVID-19 vaccine candidate mRNA-1273, and 2) an announcement on longer shelf-life. Both press releases are attached.

Please do not hesitate to reach out should you have any questions.

Best Wishes,
[redacted]
